The Path to Activity  
The Path to Work  
The Path to Outcomes

**Empatha Care Management** is a national rehabilitation company delivering evidence-based biopsychosocial programs and delayed recovery solutions. Empatha prevents and reduces costly delayed recovery associated with chronic pain, mental health, PTSD, post-Covid syndrome, concussion and other work disabling conditions.

## GO OUTCOMES

**90%** Accuracy in predicting problematic cases

**7X** Return on Investment

**60%** Reduction in Medication Utilization

**87%** Patient Satisfaction

# GOFORWARD

Empatha delivers an integrated complex care program for employees delayed in recovery. We developed a leading-edge community of behavioral medicine providers including health psychologists, PT/OT providers, rehabilitation and professional counselors, specialty medical and pain management providers including functional restoration programs.

## Integrated Behavioral Health & Physical Rehabilitation Program

Empatha's interdisciplinary care oversight program includes work-focused cognitive behavioral therapy (CBT), The Progressive Goal Attainment Program (PGAP®), work and function-focused physical and occupational therapies, vocational and return to work interventions, and other evidence-based approaches.

Empatha integrates with employer and insurer care coordination teams to deliver The Empatha Program.
